Parts of the web are Up-dated on a weekly basis (circumstances permitting) in line with the printed Update - which Barbara copies to me.

I try to find photographs or logos of the people, places and organisations which we are mentioning in our Prayers and Intercessions and, where possible, I embed links through to other webs so that browsers can gain greater understanding of what we are being asked to pray about.

I try to make connections through to the priests and Diocese mentioned and often email them and tell them about our prayers of their behalf (on the basis that prayer is a good thing - and that knowing that someone remembers and cares for you is an equally good thing).

We have received many messages of thanks and support from all over the world, helping salvage some of the Internet's tarnished reputation as well as informing them about St. Leonard's thoughts and actions on their behalf.

Please use it as a resource for refreshment or quiet thought during your busy week .. whether at home or away .. whether in this country or abroad.
Why not make it your <Homepage> and invite St. Leonard into your P.C. ?
